STORAGE AND USE INSTRUCTIONS:

Application Type Rate

Maintenance Truck Sprayer	7 oz per 1,000 square feet. Use every 4-8 weeks during the growing season.
New Installation Truck Sprayer	7-14 oz per 1,000 square feet.
Backpack Sprayer	7 oz per 1,000 sq ft. When calibration is not possible, add 7 oz per gal of water. Use every 4-8 weeks during the growing season.
Hose End Sprayer	Fill container and spray at the highest setting. Use every 4-8 weeks during the growing season.

Ideal water volume is 1-3 gallons per 1,000 sq ft. If under 1 gallon, irrigation is recommended after application.

Recommended Spray Tips: Flood jet nozzles or spray gun with yellow, green, or white nozzle.

Keep refrigerated between 33°F and 44°F. This product can be stored at room temperature for up to two weeks. Once it is mixed with water, the mixture must be used within two weeks.

There may be a certain amount of sediment or growth in the container. In order to avoid clogging your spray system, please SHAKE WELL and SCREEN material during the filling process.

COMPATIBLE PRODUCTS:

Check compatibility using a jar test prior to using. HGX PRO Bio 800+ Bloom is spray tank compatible with most fertilizers and pesticides, and in many cases rate efficiencies can be gained. Visit www.HGXPRO.com for compatibility and rate questions.

KEEP REFRIGERATED
