

PROMOTING HEALTH AND RECOVERY IN PLANTS WITH

# PreBiotic 2-10-20

A potassium and phosphorus focused fertilizer containing microbe food and nutrient enhancers to promote:

Strong root growth

Seed germination

Nutrient uptake by the plant

Water use

Lakeside Peach Orchard uses Bio 800<sup>+</sup> Tree & Shrub, PreBiotic 2-10-20, and Blue Sky 21-0-0

## GUARANTEED ANALYSIS

Total Nitrogen (N) .....2.00%  
1% Urea Nitrogen  
1% Nitrate Nitrogen  
Available Phosphate (PO).....10.00%  
Soluble Potash (KO).....20.00%

Derived from Urea, Potassium Nitrate, and Monopotassium Phosphate.

Also contains a polymer.

## APPLICATION RATES

Turf	1.0 to 3.0 fl oz per 1,000 sq ft of turfgrass in 0.5 to 2.0 gal of water per application. Repeat as needed.
Trees, Shrubs, Flowers	1.0 to 3.0 fl oz per gallon of solution to be foliar sprayed or Injected into the root zone and/or applied via basil drench.

\*For full guaranteed analysis and addition use directions, see label

## ADDITIONAL TURF AND ORNAMENTAL PRODUCTS

### Bio 800<sup>+</sup> Turf

Organic, microbial soil amendment that:

- Reduces fertilizer and pesticide use by up to 75%
- Builds soil health
- Boosts root architecture

Ideal for: Lawn Care and Landscape

### Bio 800<sup>+</sup> Golf

Organic, microbial soil amendment that:

- Improves fertilizer efficiency
- Improves turf resilience against stress
- Develops soil health

Ideal for: Golf, Sports Turf

### Bio 800<sup>+</sup> Tree & Shrub

Organic, microbial soil amendment that:

- Develops stronger, more vigorous plants
- Boosts root architecture
- Reduces fertilizer and pesticides by up to 90%

Ideal for: Landscape, Nurseries, Greenhouses

### Bio 800<sup>+</sup> Bloom

Organic, microbial soil amendment that:

- Improves heal in during planting
- Develops more plentiful and more colorful blooms
- Boosts root architecture

Ideal for: Landscape, Nurseries, Greenhouses

### Blue Sky 21-0-0

60% slow-release nitrogen fertilizer with microbial food sources that:

- Provides color 2-3x longer than standard fertilizer
- Nurtures steady growth in turf

Ideal for: Lawn Care, Golf Course, Sports Turf

### PreBiotic 30-0-0

Stabilized nitrogen fertilizer that:

- Builds a thick turf system
- Provides a pop of green color

Ideal for: Lawn Care, Golf Course, Sports Turf

### Granular 2-4-3

Organic, granular fertilizer infused with soil microbes that:

- Develops soil health
- Boosts root architecture

Ideal for: Landscape

### Granular 7-9-5

Granular fertilizer infused with soil microbes that:

- Builds a thick turf system
- Fosters seed germination

Ideal for: Lawn Care, Golf Course, Sports Turf

### Granular 10-3-2

Granular fertilizer infused with soil microbes that:

- Builds a thick turf system
- Provides a pop of color

Ideal for: Lawn Care, Golf Course, Sports Turf

### Plant Start 2-4-3

Organic, granular fertilizer infused with soil microbes including high populations of *mycorrhizal* fungi that:

- Boosts root architecture
- Develops stronger, more vigorous plants

Ideal for: Landscape
